Product Description

Artificial lilies long stem is a highly simulated work of art. Its realistic appearance makes it difficult to distinguish from real flowers.

The flexible branches of long stem artificial lilies can be bent at will for personalized placement. Its perishability makes it a long-lasting beauty and easy to care for.

Multiple colors are available to meet different decoration needs, such as artificial orange lilies, white lily artificial flowers or artificial pink lilies.

Fake lily flowers use PU injection molding technology, and the texture is closer to real lilies, bringing the perfect combination of art and nature to the home. This artificial lily is ideal for showing off your beauty and personality.

Clear texture of petals and stamens

Every part is carefully crafted to restore the texture of real flowers, and is installed by hand by master craftsmen with many years of experience in the industry, giving it a rich texture.

Full shape

Made with a 1:1 simulation of a real lily, the color and shape are fresh, natural, full, and well-organized, making it look like the real thing.

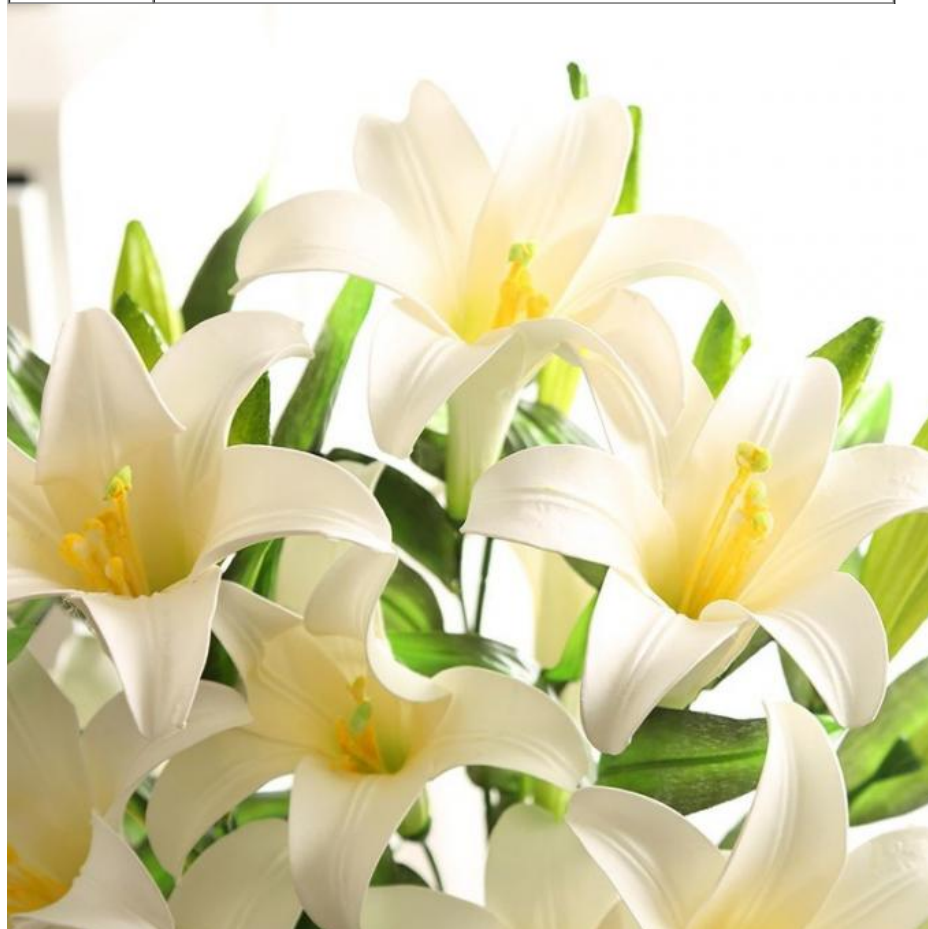

Flower details

The leaves are made of the same high quality, dyed evenly, and have unique black edges and color transitions. Uniform, no different from real leaves.

Applicable spaces: desk, entrance, bedside, home
