Product Description

Simulated Daisy Flower Vine Artificial Flower Vine is a simulated vine made of high-quality environmentally friendly flower materials. Materials include high-quality silk cloth, professional simulated plastics, tactile materials, etc. to ensure the overall texture is of high quality. Its overall length is approximately 170cm, providing a variety of decorative possibilities for various scenes.

This fake daisy flower vine stands out with its realistic daisy flower design. Each flower is made of professional simulated plastic and paired with tactile materials to make the overall texture more realistic. At the same time, the overall length of the simulated vines is moderate and can be flexibly matched for different occasions, such as weddings, parties, home decoration, etc.

High-quality environmentally friendly flower materials ensure the durability of faux daisy flowers rattan and are not easily affected by the external environment. The choice of various colors makes it more personalized and meets the aesthetic needs of different consumers.

In addition, Simulated Daisy Flower Vine Artificial Flower Vine supports personalized customization. Users can flexibly choose the color, layout and other elements of flowers according to their own preferences and scene needs to create unique floral decorations.
